

Owen Crandall

Software Engineer

owenmcrandall@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) | Minneapolis, MN

SUMMARY

Full-stack software engineer with experience building and shipping production web and mobile applications. Adept at owning the full development lifecycle, from system design and backend architecture to frontend implementation and deployment. Brings hands-on experience in fast-moving startup environments, AI-integrated products, and end-to-end SaaS development.

EDUCATION

University of Minnesota Duluth

Aug 2023 – May 2026

Bachelor of Science, Computer Science

Relevant Coursework: Artificial Intelligence · Operating Systems · Computer Security · Database Management · Software Engineering · Automata & Formal Languages · Vectors and Matrices

TECHNICAL SKILLS

Languages: C++, Python, TypeScript, JavaScript, Java, SQL

Frontend: React, React Native, Next.js, Angular, Expo

Backend & Databases: Node.js, PostgreSQL, Firebase, Supabase

AI / ML: TensorFlow, OpenAI API, LLM integration

Tools & Cloud: Git, GitHub, AWS, Vercel, CI/CD, Linux

EXPERIENCE

Software Engineer · Shyne Bright Services LLC

Jun 2025 – Jan 2026

Medical transportation platform · Internship · shynebrightsv.com

- Architected and shipped full-stack features for a production medical transportation platform serving real users, owning the feature lifecycle from Figma design through deployment.
- Built authentication, profiles, ride scheduling, real-time workflows using React, Node.js, and Firebase, and delivered production-ready UI components from Figma mocks, establishing a consistent design.
- Delivered features on a weekly release cycle in a fast-paced startup environment, maintaining code quality and consistency across a growing codebase.

PROJECTS

K'Boys Kare — Nonprofit Web Platform · kboyskare.com

May 2026 – Present

- Designed and launched the web presence for K'Boys Kare, a 501(c)(3) nonprofit supporting pediatric cardiac patients, including donation workflows, program pages, and community engagement features.
- Built with Next.js and Vercel; fully mobile-responsive with integrated PayPal giving, email list signup, and social media connectivity.

Wealtho — AI Personal Finance Platform · wealtho.app

Nov 2025 – Present

- Built and deployed a live SaaS application as sole founder and engineer, owning the full stack: UX design, backend architecture, database schema, and CI/CD pipeline.
- Integrated OpenAI API to generate personalized financial insights from structured transaction data, delivering actionable coaching to users through a gamified interface.

LEADERSHIP & ACTIVITIES

- Eagle Scout (Boy Scouts of America) — Led multi-month community projects, managed volunteer teams, and delivered measurable outcomes under resource constraints; top 4% of scouts nationwide.
- Website Development Lead, Bulldog Rocketry Club — Led a full website and brand redesign for the club, applying and expanding frontend development skills in a real project setting.
- Competitive Runner — Marathon PR: 3:56 · Mile PR: 4:39
